

SHOW ME CASH: To play Show Me Cash, a player must select one play (set) of five different numbers between 1 and 39. One play costs \$1. A player may select each set in one of three ways: by verbally communicating the numbers to the retailer, by completing a playslip or by requesting a “Quick Pick.” Show Me Cash is drawn daily at approximately 6:57 p.m.. The more numbers the player matches to those drawn, the more he or she wins. (See chart below.)

How to play Show Me Cash using a playslip

1. The playslip has five play boards (“A” through “E”). You may play 1, 2, 3, 4 or all 5 boards. A play is one board for \$1. Each board contains numbers from 1 through 39.
2. Select five numbers per board by placing a heavy [I] in each box, beginning with board A. If you want the terminal to randomly select the numbers for you, mark the box below “QUICK PICK.” If you make a mistake, mark the “VOID” box on that board and select your numbers on the next board.
3. Use only a blue or black pen or use a pencil for marking selections; red ink will not be accepted by the terminal.
4. To play your numbers for more than one drawing at a time, mark the appropriate box on the left side of the playslip under “MULTI DRAW.” This will play only your selections in boards “A” through “E” for that number of drawings.
5. Show Me Cash can be played for 1, 2, 3, 4, 5, 6, 7 or 14 consecutive drawings.

How to play Show Me Cash verbally

Show Me Cash may be played by making a verbal request for a ticket. The player must provide the clerk with the following information:

1. The dollar amount to be played;
2. The numbers to be played - either player-selected or “Quick Pick;” and
3. The number of draws to be played.

Show Me Cash Prize Structure

Match	Prize	Chances
5 Numbers	\$50,000* Minimum	1 in 575,757
4 Numbers	\$250	1 in 3,386.8
3 Numbers	\$10	1 in 102.6
2 Numbers	\$1	1 in 9.6

Prizes are approximately 55 percent of sales. Overall chances of winning a prize are 1 in 8.77 for each \$1 played.

*The estimated advertised jackpot will increase at least \$5,000 each drawing until won. Players matching all 5 numbers in a single line will be paid that day’s estimated advertised jackpot amount. If more than one player matches all five numbers, the estimated advertised jackpot amount for that day will be split equally among all winning tickets that matched all five numbers in a single line. The daily Show Me Cash Jackpot

prize pool produced from each day's sales will roll into the next day's estimated advertised jackpot amount, less \$1,700. The \$1,700 amount will be placed into the Show Me Cash Jackpot Prize fund. The Show Me Cash Jackpot prize fund will be used to fully fund the starting \$50,000 Show Me Cash minimum jackpot if proceeds from the previous day's jackpot prize pool are less than \$50,000. If proceeds from the previous day's jackpot prize pool (after a jackpot hit) are greater than \$50,000, the excess will be placed in the Show Me Cash Jackpot Prize Fund.
